DETAILED ACTION

1. The Amendment filed by Applicant on 07/03/2008 has been entered.

2. Claim 8 and 16-19 have been canceled.

Response to Amendment/Arguments

3. Applicant's amendment and arguments filed on 07/03/2008 have been fully considered and they are found persuasive.

4. The rejection of claims 16-19 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is withdrawn.

5. The rejection of claims 16-19 under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process is withdrawn.

6. The rejection of claims 1-3, 5-7, 9-10, 9-14 and 16-24 under 35 U.S.C. 102(b) as being anticipated by Nicolas-Morgantini et al., U.S. Patent No. 5,9548,71 is withdrawn.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 16-19 provides for the use of a dispersion, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

3. Claims 6 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153
